EXPERIENCE

Assa Ably

Created concepts for levers that could open doors handsfree. I created a design that would go near the bottom off a door that released a lever to open the door.

Comar

I Created a bottle and top that stopped the overflow of product coming off the sides of condiment tops.

Unilever

Created designs to make sustainable products that are better for the environment. I created a design that was refillable with a housing unit that did not need to be thrown away. I also collaborated with a graphic designer to create a logo and packaging.

EDUCATION

University of Bridgeport — *Industrial Design*
Bachelor of Science

August 2017 - May 2021

SKILLS

Concept Sketching

Adobe Photoshop

Solidworks

Keyshot
