// SKILLS

- Research
- Creative Problem Solving
- Ideation
- Sketching
- 3D Modeling
- Virtual-Reality Modeling
- Digital Rendering
- 3D Printing
- Model Making
- Photography
- Woodworking
- Metalworking

// SOFTWARE

- Solidworks
 - Intermediate understanding of advanced modeling techniques
- Keyshot 3D
 - High familiarity with composing scenes, lighting, and creation of complex materials
- Fusion 360
- Siemens NX
- Blender
- Cura
- Adobe Creative Suite
- Microsoft Suite

// MACHINERY & TOOLS

- Hand Tools
- Wood Working Tools
- Metal Working Tools
- SLA & FDM 3D Printers
- Laser Cutters/ Plotters
- Large Format Printers

// WORK EXPERIENCE

Product Ventures Ltd // Fairfield, CT

November 2020 - May 2021

Designed and created extremely high fidelity prototypes for world renowned brands and clients. Experienced varying stages of the design process for numerous active projects. Prototypes were produced focus group testing and client manufacturing purposes.

Tanaka Kapec Design Group // Norwalk, CT

May 2019 - February 2020

Worked on all active projects at various stages of the design process. Experience CAD, sketching (physical and digital), prototyping, research, problem solving, and rendering.

Viking Mold and Tool Inc // Dorothy, NJ

May 2018 - January 2019

Conducted simple part production of tooling for injection blow molding through the use of heavy machinery. Gained important experience with machining skills as well as experience with injection blow molding.

// EDUCATION

Shintaro Akatsu School of Design // Bridgeport, CT

Bachelor of Science in Industrial Design

Dean's List, 4.0 GPA

Graduation May 2021

Member in the student chapter of Industrial Designer's Society of America (IDSA) club.
